Inception	March 2021
Liquidity	Monthly, 30 days' notice
Fees	1.5% management / 20% performance
Administrator	Brightline Fund Services
Max drawdown (since incept.)	-6.8%

Portfolio Manager Commentary

February was a difficult month for the fund. A sharp momentum unwind mid-month hurt our medium-horizon signals, and we did not fully offset the move with our short-term book. We kept gross exposure near 2.6x and see no structural change in signal efficacy.

Risk metrics: annualized volatility since inception 7.6%; correlation to MSCI World 0.04.

For professional investors only. Past performance is not indicative of future results. Figures for the latest month are estimates until finalized by the administrator. Fictional fund for demonstration.
